Supply Chain

This section will appear only once at organisation level

If you think there are any errors with allocation please contact
stewardshipsurvey@ogauthority.co.uk

The UKSS 2020 survey will **open on Friday 30th October 2020** and will **close on Friday 26th February 2021**.
As in previous years the Activity section will close on Friday 15th January 2021.

UKSS 2020 Changes

The following changes are being implemented in the Supply Chain section of the survey.

1. You will now be asked to provide a list of anticipated new or decommissioning projects in the next 36 months, which is an extension from 12 in the previous survey.
2. All sections have enhanced guidance and explanatory notes.

How have your workforce numbers changed from last year?

Year	Permanent staff	Contractors	Apprentices and trainees
2019	<input type="text" value="10"/>	<input type="text" value="5"/>	<input type="text" value="1"/>
2020	<input type="text" value="11"/>	<input type="text" value="6"/>	<input type="text" value="2"/>
2021	<input type="text" value="12"/>	<input type="text" value="7"/>	<input type="text" value="3"/>

Action plan

Supply chain action plans became mandatory from 1st April 2018 for all new FDP and Decommissioning programmes. The aim of this section is to capture the level of future activity in these areas. This section should be completed by operators and simply list the number of new projects requiring a field development plan or decommissioning programme they expect to start developing within the next 36 months.

List the names of any anticipated new or decommissioning projects coming forward in the next 36 months which will now require an accompanying supply chain action plan.

Do you use LOGIC standard contracts?

If your answer is no please expand with reasons why not.

- Yes
 No

Please explain your reasons

Supply Chain

Workforce

The aim is to collect information on workforce numbers and understand the changing trend in capability and capacity. For this section please provide actual numbers of permanent staff, contractors on your payroll, apprentices and trainees for each of the years 2019, 2020 and changes envisaged for 2021. This should be completed by all oil companies (Operators and JV partners) for the whole workforce **based only in the UK**. Workforce numbers should be taken on the 1st January each year. Contractors are defined as those people on a day rate.

Please ensure you enter numbers for the whole workforce, not just those engaged in Supply Chain activities.

Action plan

Supply chain action plans became mandatory from 1st April 2018 for all new FDP and Decommissioning programmes. The aim of this section is to capture the level of future activity in these areas. This section should be completed by operators and simply list the number of new projects requiring a field development plan or decommissioning programme they expect to start developing within the **next 36 months**.

Industry standards

Industry standards have been developed over a number of years to introduce efficiencies and fair contracting practices across the Oil and Gas sector. The full benefits can only be realised through full compliance and this section is to gather information as to whether these standards are still appropriate and effective.

If you selected 'No' to 'Do you use LOGIC standard contracts?' then you must provide additional data

What approximate percentage of your overall spend was with the following companies in 2020:
